

# HAUS & LUFT

- 5-stage filtration system includes:
  - 3 filters:
    - Prefilter: pre-filtering of air to remove dust, allergens and hair from the air
    - HEPA 13 filter: main filtering of air to remove remaining dust, pollens, allergens, mould spores and smoke
    - Activated carbon filter: filtering of formaldehyde, benzene, harmful airborne gases and all bad odours
  - UV-C lamp: biological treatment of air by killing viruses, bacteria and microbes
  - Ionizer: generation of negative ions to regulate the ionic balance of indoor air and improve your well-being by generating the air present at natural locations, e.g. in a forest or at the seaside
- CADR: 481 m<sup>3</sup>/h
- Output power: 70 W
- Air quality sensor PM2,5+ 4-colour display
- Carbon and HEPA filter replacement indicator
- AUTO function: the air purifier will automatically adjust the air filtering speed to the detected air quality.
- SLEEP function: reduces the air fan speed and turns off all LEDs and ambience lamps for unobtrusive operation at night.
- Button lock: locks all control buttons to prevent inadvertent change of settings or powering off the air purifier.
- 4 speed levels
- Timer: 2, 4, 8 h
- Noise level: 29 dB (L), 45 dB (M), 57 dB (H), 62 dB (Turbo)
- Recommended usage area: up to 50 m<sup>2</sup>
